Subject: FW: Pipeline Priorities
Date: Tuesday, March 11, 2014 8:44:25 AM

Please let me know if the proposed funding for your site is correct, dollars and quarter.
 Also, let me know if you have a site that needs funding that is not on the list. Thanks CAS

Subject: Pipeline Priorities

We need to determine what our highest priorities are for our share of the pipeline funds. Please do a quick check with your RPMs if what is listed below adequately captures the site needs since they have not been able to update CERCLIS since most of this was pulled.

There is a meeting scheduled with Carl/Pam on Thursday, so we need to have a good plan quickly. I will look for a time for us to meet prior to Thursday to prepare.
